Dear Sir

In working on the skin and feathers of birds I have met the following nominal references that I cannot make out. Audebert, Baster, Camper Wenzel. Will you be so kind as to tell me where it is best to look for them and help one who has already experienced your kindness

Yours &c.

J. Amory Jeffries.

Dear Brewster.

I scarcely know what to say about the A.O.U.; of course I shall go. I cannot but think that this meeting will bring about a crisis in the life of the Bulletin. It will either put it on its legs for good or kill it. Remembering the motto about unity, there should be a meeting of the Pub. Com. to consider possible contingencies.

As ever
Your Or.
